Danish Product Registry – Offshore Products Notifications **Cabot Specialty Fluids Products**

Cabot Corporation's Specialty Fluids Products include our completion fluids products.

The Executive Order on Special Duties of Manufacturers, Suppliers and Importers, etc. of Substances and Materials pursuant to the Danish Working Environment Act requires manufacturers and/or importers of chemicals to notify those substances or materials in accordance with the procedures and timelines prescribed within the Act.

The requirement to notify extends to products used on offshore installations or on board ships. Notification of offshore products is subject to special rules.

To assist our customers, we provide the following information:

Cabot certifies it has completed the notifications required to cover all completion fluids products listed in the table below which are imported by Cabot in Denmark.

The table below provides the product registration (PR-No) numbers and dates by which the notification will expire for each of the completion fluids products.

	PR-No	Expiry Date
Buffered Potassium Formate Brine	2393208	by July 10, 2020
Buffered Cesium* Formate Brine	1276691	by July 10, 2020
Cesium/Potassium Formate Brine	2395799	by July 10, 2020

*Cesium formate has been self-classified. Please see the product material safety data sheet for further information.

This information is being provided as of the date hereof. Please refer to Cabot's website – www.cabot-corp.com - for any updates to this information.
